Assembly Instructions

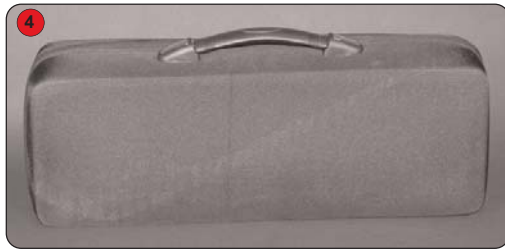

1 Take the case and lay it down with the handle on the bottom.

2 The case should contain spaces for all of the light bulbs, clamps, and loose cords on one side.

3 The actual lights are on the other side of the case. Open the black divider using the Velcro. (LV2 cord does not disconnect from the light)

4 Take the case and lay it down with the handle on the bottom.

5 In this case, the light is placed in the case with all of the accessories on the same side. Move the black divider using the Velcro.
